

Countdown to Christmas

Hanging Orb

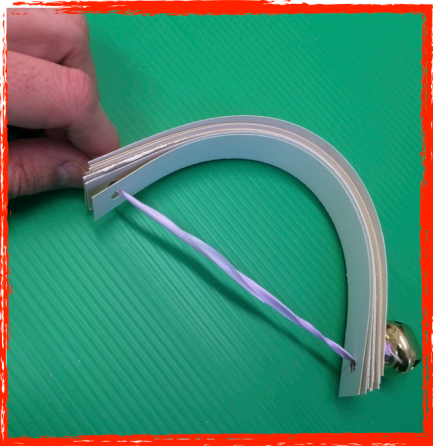

You will need some card, ribbon, and something like a bell or two. Cut some card into about 15 strips. I suggest about 20 cm long and 1 cm wide.

At the end of each strip of card make a hole. An office hole punch is ideal for this.

At the end of the ribbon thread on a bell or similar (a button would do).

Now thread on all the card strips. they should look like the picture here. Gently bend the card strips and tie another bell or button to hold the strips bent. (I have used a Christmas star decoration.

Gently fan out the strips of card and evenly space them in an orb shape.
