

Countdown to Christmas

Snowman Identikit

This one couldn't be simpler! It's ideal for even very young children. Cut a pile of orange triangles, black circles (small and medium size) and brown strips. you will also need a few paper plates.

Now use these to make any number of different snowmen faces. Good tip is to lay them out before sticking.

With a little imagination you can also add scarfs, hats and other bits. punch holes in the sides and string up a whole row of them for best effect.
