

Countdown to Christmas

Colourful Tree Picture

On A3 size white paper and with watered down blue paint make your sky line. Have the hilly ground about half way up. Cut several cardboard triangles and cover with PVA glue and tissue paper. An extra coat of glue over the whole triangle will give a good shiny effect.

When everything is dry add a little rectangle of brown at the bottom of the triangle for a trunk then stick the trees on the background. Finger prints of white paint will add a lovely snow effect.
